Digestive enzymes are highly specific agents that help transform the food we eat into nutritional compounds our bodies need for living. **ESSENTIAL ENZYMES^{ULTRA}™** is a Bio-Aligned Formula[®]; it is highly diverse and utilizes multiple levels of enzymes for digesting food in a wide range of pH levels. It contains five types of proteases (protein-digesting enzymes) and multiple enzymes for the digestion of carbohydrates, fats, fiber, and milk sugars. It is one of the most sophisticated arrays of digestive enzymes on the market today for supporting digestive comfort.*
