

Estrovera®

Featuring ERr 731®

Highly Efficacious

Formulated with ERr 731®, which has shown up to 83% reduction in menopausal symptoms*†

Exceptional Safety Profile

ERr 731® recommended by healthcare professionals in Europe since 1993

Extensively Studied

Multiple well-designed, randomized, double-blind placebo-controlled studies*

Simple Dosing

Well-tolerated, once-daily tablet*

*This estimated ratio is not included in the publication of cumulative results of a 12-week study followed by 2.48-week observational studies (OS). It is calculated from the mean change of the MRS II total score of 5.7 at the end of the first 48-week OS divided by the baseline score of 34. There was no change in total score from the end of the first OS to the end of the second OS. These results are from the ERr 731® subgroup only, which was administered ERr 731® daily for a total of 108 weeks. This calculation does not take into account some changes in study population over time.

Estrovera®

Featuring ERr 731®

DIETARY
SUPPLEMENT

8 7-TABLET BOTTLES
56 TABLETS

Estrovera's key ingredient, ERr 731®, has been used safely and effectively for over 20 years and is supported by clinical studies. Estrovera provides relief for multiple menopausal symptoms, including hot flashes, sleep disturbances, mood swings, irritability, anxiety, and sexual problems.*
