**Lipotain®** is a formula designed to help maintain healthy blood lipids by supplying 500 mg of niacin as inositol hexanicotinate per serving. This unique, sustained-release form of niacin is formulated to be effective without the uncomfortable adverse effects associated with conventional niacin, such as flushing. Lipotain also features a standardized extract of guggul resin, to support healthy blood lipid levels already in the normal range and complement the activities of inositol hexanicotinate.\*

**Directions:** Take one tablet three times daily or as directed by your healthcare practitioner.

**This product is non-GMO, gluten-free, and vegetarian.**

**Caution:** Niacin use may be associated with itching and/or allergic reactions.

**Warning:** Do not use if pregnant or breastfeeding or if you have a history of gout, kidney, or liver dysfunction. Larger than recommended doses of niacin have been associated with liver dysfunction. If taking cholesterol lowering medications, blood thinners, or using non-steroidal anti-inflammatory medications (NSAIDs) please discuss with your clinician prior to use.

**Storage:** Keep tightly closed in a cool, dry place.
