The Very Finest Fish Oil has received numerous awards for its taste and quality. To ensure maximum freshness, The Very Finest Fish Oil is closely managed from sea to store. We source the highest quality, deep, cold-water fish using traditional, sustainable methods. It's then packaged with a touch of antioxidants and is given a nitrogen flush to remove oxygen and to help prevent oxidation. Each packet of The Very Finest Fish Oil provides 1,600 mg of omega-3s, including EPA and DHA, which support heart, brain, vision, and joint health.* Like all Carlson omega-3s, freshness, potency, and purity are guaranteed.
