

PectaSol-C® Professional Modified Citrus Pectin is a natural blocker of galectin-3 (Gal-3), an aging and cellular health biomarker. Research shows that healthy Gal-3 activity in the circulation supports healthy aging, cellular function, cardiovascular health and normal immune response. PectaSol-C® Professional is a clinically studied pectin extracted from the pith of citrus fruit peels and modified to a low molecular weight to increase its absorption into circulation to provide systemic benefits.*

Natural lime crystals and just a touch of stevia gives this daily supplement a delicious, refreshing flavor.

- Supports Cellular and Cardiovascular Health*
- Promotes Healthy Immune Response*
- Supports Detoxification*
