Over 40 Years of Published Research and Clinical Support Padma Basic® is based on a time-honored Tibetan herbal formula, and has been

extensively researched in over 25 published clinical trials. Results show that Padma Basic® is an effective natural solution for promoting cardiovascular health, including support for mobility and healthy blood circulation. Studies also demonstrate the benefits of Padma Basic® for healthy immune function, free radical scavenging and other areas of health.*

The 19 unique botanicals in **Padma Basic®** are rich in antioxidants and other active compounds that deliver synergistic benefits through multiple mechanisms of

action. Padma Basic® offers targeted, multi-system support as well as a gentle balancing effect for overall wellness and vitality.*
