VEGAN PROTEIN NUTRITIONAL SHAKE

Not only are plants a great source of nutrition...they can also be a great source of protein. Protein doesn't have to come from animals (grazing cows can be thankful for that) it can just as easily come from the earth. When sourced that way, earth-harvested plant protein can give you all the protein you need while being more sustainable than animal protein, environmentally-conscious and non-gmo...all with a friendly carbon footprint. When eating a healthier diet (or at least trying)...adding a vegan protein can be a great addition to your day. It's great-tasting nutrition at 160 calories without high levels of fat. Nutritious, plant-harvested, protein...vital nutrients...fruit, vegetable and green concentrates...probiotics, digestive enzymes, flaxseed EFA, plus all the goodness of ayurvedic botanicals. That's the broad-spectrum nutrition you get in every Solgar® Spoonfuls.
