

Hair, Skin and Nails

Health Logics brings you its most advanced hair, skin, and nails formula that combines the power of collagen peptides, hyaluronic acid (HA), chondroitin sulfate (from clinically studied BioCell Collagen) in combination with Vitamin C and Biotin. Collagen and HA are vital components of skin that decline as we age and are responsible for the skin's moisture, suppleness, elasticity, vibrancy, and beauty. Vitamin C supports collagen formation in the body and acts as an antioxidant to help neutralize free radicals, often associated with aging and UV sunlight exposure. Biotin promotes hair and nail health.*
