

WHAT ARE TURMERIC AND CURCUMIN?

Turmeric is a spice prized in India for its many health benefits. Curcumin is the most well studied active ingredient found in turmeric, but turmeric also contains other powerful beneficial actives including other curcuminoids, turmerosaccharides, turmerones and many others.

WHY IS OURS UNIQUE?

Our combination of Cavacurmin®, Turmacin® and whole powdered root provides a complete range of turmeric actives for maximum benefit and which is more akin to nature.

Cavacurmin® delivers curcumin in a form that is 40 times more absorbable than standard turmeric extracts (no need for piperine), whilst also providing other valuable curcuminoids too. Turmacin® contains turmerosaccharides and the whole root provides turmerones, terpenoids and a whole host of other supporting actives.

- ✓ Full spectrum formulation – harnessing all the goodness of the whole turmeric, with curcumin extract
- ✓ More beneficial than curcumin extract alone
- ✓ With Cavacurmin® and Turmacin®, backed by clinical studies
- ✓ Guaranteed strength and purity.

Higher Nature, Burwash Common, East Sussex, TN19 7LX, UK

DIRECTIONS:

Take 2 capsules a day with food, or as your health professional advises.

Do not exceed recommended daily intake.

Food supplements should not be used as a substitute for a varied and balanced diet and healthy lifestyle.

STORAGE:

Store in a cool, dry place out of reach of children.

For best before end, see base.

Suitable for vegetarians and vegans.

This product has not been tested on animals.
