Keep out of reach of children

WHBE, Herbal Bright Eyes is an exclusive scientific formulation that contains beneficial phytonutrients herbs and anti-oxidants necessary to support healthy vision. This product contains Lutein, a powerful anti-oxidant that has been shown to aid in the reduction of the incidence of macular degeneration. Lutein and Zeaxanthin are two powerful naturally occurring anti-oxidant carotenoids that are stored throughout the eye. The body cannot produce Lutein and Zeaxanthin and their benefits can only be delivered to the eye if they are part of your diet or a supplement. We also included higher levels of Alpha and Beta Carotene, which may be necessary for proper eye function. We also add the antioxidant benefits of Bilberry, Vitamin C and Vitamin E to create a truly comprehensive formula specifically designed to help protect the fragile cells of the retina, macula, lens and other delicate eye tissues from the impact of a lifetime of oxidative insults. The Wachters' Exclusive Blend of Sea Vegetation® is the key ingredient that makes this formula unique.*
