Keep out of reach of children

WHP Men's Prosta-Gard is an exclusive scientific formulation consisting of herbal and natural ingredients that have been used for centuries in Chinese and Ayurvedic Medicine to serve as a tonic for a man's special health requirements. Saw Palmetto Berries contain substances that may inhibit the formation of DHT from testosterone. Pygeum may limit the effect of potentially harmful hormones and several studies have shown that these two herbs work well together. Zinc is important in prostate gland function. Lycopene is a powerful antioxidant which appears to concentrate in the prostate area more so than in other parts of the body. The Wachters' Exclusive Blend of Sea Vegetation® is the key ingredient that makes this formula unique.*
