

Coenzyme Q-10 is a natural antioxidant which plays several highly useful roles in the body, including support for heart health and the production of energy in cells. CoQ-10 has also been identified as important for those taking statin medications as it can replace what they may deplete. This CoQ-10 formulation offers 100% vegetarian CoQ-10 derived from fermentation.\*

CoQ-10 is not intended as a substitute for Statin therapy. Do not discontinue use of prescribed medications while taking CoQ-10.
