PATENTED AveULTRA[®]

Enhanced Concentrate

Studies show that Avemar[®], found in AveULTRA, provides valuable health benefits, supporting mechanisms of regulation associated with cell metabolism and immune function.*

AveULTRA[®] is made under the supervision of the original inventor of Avemar, Máté Hidvegi, Ph.D. Improving on his original patented, fermented wheat germ

processing method, he created a better tasting, easier mixing dietary supplement drink mix. Improvements include utilizing low temperature freeze-drying which eliminates the need to use maltodextrin as a stabilizer, and replacing crystalline fructose sweetener with natural, zero calorie stevia Reb-A. As a result, AveULTRA contains 99% less stabilizing and flavoring additives, while maintaining the same quantity of Avemar fermented wheat germ actives as used in clinical trials.**

More Concentrated, Easier Mixing, Better Tasting!

The development of Avemar fermented wheat germ extract has become the life's work of Dr. Hidvegi. He was inspired to build upon the theories and experiments of Hungarian Nobel Prize Laureate, Dr. Albert Szent-Gyorgyi. Dr. Hidvegi's patented processes yield a consistently effective standardized extract that has been extensively researched. Avemar has been the subject of over 100 studies in cell lines, with animals and clinical trials, reported in more than two dozen articles in medical peer-reviewed journals.

***Subjects in clinical trials consumed 8.5 g per day of Avemar pulvis, consisting of 5.5 g Avemar fermented wheat germ actives with 3 g maltodextrin non-activestabilizer. Each packet of AveULTRA contains 5.5 g Avemar fermented wheat germ actives, without maltodextrin.*

AveULTRA[®] Dietary Supplement
Item Code: AUOD-30

Natural Orange Flavored
Instant Drink Mix

30 individual serving packets

PATENTED AveULTRA[®]

Enhanced Concentrate

Suggested Use: As a dietary supplement for adults, use 1 AveULTRA[®] packet (5.53 g, providing 5.5 g Avemar fermented wheat germ actives) per day. Add contents of AveULTRA packet to 4 oz (120 ml) of cold water or juice, mix well and drink within 30 minutes (mix by shaking with ice for best results). To maximize absorption consume AveULTRA approximately 1 hour before or after food, and 2 hours before or after taking any drugs or other dietary supplements. This product contains live enzymes.

Warnings: Keep out of reach of children. Should not be taken during pregnancy or while nursing. Consult with a healthcare professional for recommended usage levels for children, and for guidance on using more than 1 AveULTRA packet per day. Do not consume AveULTRA if you have had an organ or tissue transplant, or if you are hypersensitive to stevia, natural orange flavoring, wheat or yeast. This product is not intended to be the sole source of nutrients in the diet. Storage: Store in a cool dry place, with a temperature of less than 80°F (26°C).
