

take it to heart

High blood cholesterol is a major risk factor for Coronary Heart Disease (CHD).

Consuming CardioSentials® in addition to a diet low in saturated fat and cholesterol, may reduce the risk of heart disease.

‡Diets low in saturated fat and cholesterol that include two servings of foods that provide a daily total of at least 800 mg of phytosterols in two meals may reduce the risk of heart disease. A serving of CardioSentials supplies 1500 mg of phytosterols.

directions

Add 1 scoop of CardioSentials to 6-8 oz. of water, juice or skim milk and shake or blend until dissolved. For added benefits, use in combination with other Reliv nutritional formulas.

For more information or to order, call 800 RELIV US (735.4887).
