Caution: Not to be used during pregnancy or nursing women or organ transplant recipients. Keep out of reach of children.

WDNA Refresher is an exciting scientific formulation consisting of herbal and natural ingredients that have been used for centuries in Oriental Medicine that may help in revitalizing the body's systems. **Resveratrol** is a type of polyphenol called a phytoalexin and a potent compound that may help reduce free radicals, which damage DNA. It may have the ability to make new mitochondria more efficient and produce less free radicals. **Cats Claw Bark** contains phenolic compounds called flavonoids that can promote antioxidant activity and may help cellular rejuvenation. **L-Arginine** and **L-Methionine** are essential amino acids that may aid in the synthesis of DNA. The Wachters' Exclusive Blend of Sea Vegetation® is the key ingredient that makes this formula unique.*
