

Suggested Use. Take 1 capsule, 3 times daily or as directed by a health professional.

- ▶ Glutamine is the most abundant amino acid in the body and one of the few which can cross the blood-brain barrier; it plays an important role in biological functions including protein synthesis.**
- ▶ Provides support for the gastrointestinal tract while promoting intestinal mucosa health**
- ▶ During catabolic states or stress, such as in post-exercise, glutamine supports muscle recovery and glycogen reloading.**
- ▶ Glutamine is necessary in the production of glutathione, a key liver nutrient.**

Keep out of reach of children.
