DEEP OCEAN MINERALS

A source of concentrated essential minerals & trace elements

NON-GMO

Sustainably extracted from deep ocean water protected by a nature reserve

Feel the Difference
Suitable for Vegans

3.38 fl oz (100 ml)

DIETARY SUPPLEMENT

Supplement Facts

Serving Size ½ tsp. (2.5 ml)
Servings Per Container 40

Amount Per Serving	% Daily Value
Calcium (seawater*)	50 mcg <1%
Iodine (Potassium iodide, <i>Laminaria setchellii</i> & <i>Macrocystis integrifolia</i>) (whole kelp), (seawater*)	75 mcg 50%
Magnesium (seawater*)	100 mg 24%
Chloride (seawater*)	260 mg 11%
Sodium (seawater*)	40 mg 2%
Potassium (seawater*)	20 mg <1%
Boron (seawater*)	125 mcg **

** Daily Value not established.

† Includes varied amounts of naturally occurring trace minerals as found in seawater nature reserve such as those listed above and also barium, chromium, copper, iron, lanthanum, lithium, manganese, phosphorus, rubidium, selenium, silicon, silver, strontium, sulfur, thorium, titanium, tungsten, vanadium, yttrium, and zinc.

Deep Oceans Minerals

The revitalizing power of seawater

Starting with the summer ice melt in Greenland, water makes its way towards the ocean, gathering minerals and trace elements

as it goes. Because mineral-dense water is heavier, it sinks to the ocean floor. It then makes an amazing journey around the world's oceans, taking 2000 years to reach the Atlantic Ocean. Unlike surface water, which is exposed to sunlight, deep ocean water is characterized by its cleanliness and mineral density. It is a safe, pure, sustainable, and infinite resource.

To make Whole Earth & Sea® Deep Ocean Minerals, deep ocean water is drawn from a depth of 662 meters in a pristine location protected by steep mountains. The minerals and trace elements are extracted using a patented production process. Deep Ocean Minerals contains over 70 essential minerals and trace elements, including magnesium, which catalyzes over 300 enzyme and hormone reactions.* These macro-minerals and trace elements give structure to our organs, tissues, and bones, and help maintain fluid balance, pH balance, and membrane permeability.*
