## Bio-Immunozyne Forte™

Dietary Supplement

180 CAPSULES

**RECOMMENDATION:** Two (2) capsules each day as a dietary supplement or as otherwise directed by a healthcare professional.

**Caution:** Not recommended for pregnant or lactating women.

**KEEP OUT OF REACH OF CHILDREN**

Keep container tightly sealed and store in a cool, dry area away from direct sunlight.  
Sealed with an imprinted safety seal for your protection.

NDC#55146-06301 Rev. 09/11

## Supplement Facts

Serving Size: 2 Capsules

Servings Per Container: 90

|                                                          | Amount Per Serving | % Daily Value |
|----------------------------------------------------------|--------------------|---------------|
| Vitamin A (as palmitate and natural mixed carotenoids)   | 6,667 IU           | 133%          |
| Vitamin C (as calcium and magnesium ascorbates)          | 200 mg             | 333%          |
| Vitamin E (as d-alpha tocopheryl acetate)                | 30 IU              | 100%          |
| Thiamin (B1) (as cocarboxylase chloride)                 | 10 mg              | 867%          |
| Riboflavin (B2) (as riboflavin-5-phosphate)              | 15 mg              | 862%          |
| Niacin (as niacinamide)                                  | 20 mg              | 100%          |
| Vitamin B6 (as pyridoxal-5-phosphate)                    | 15 mg              | 750%          |
| Pantothenic Acid (as calcium pantothenate)               | 25 mg              | 250%          |
| Zinc (as zinc gluconate and zinc citrate)                | 30 mg              | 200%          |
| Selenium (from vegetable culture † and selenomethionine) | 50 mcg             | 71%           |
| Copper (as copper gluconate)                             | 1 mg               | 50%           |
| Manganese (as manganese gluconate)                       | 2 mg               | 100%          |
| Neonatal Adrenal Complex (bovine)                        | 20 mg              | -             |
| Neonatal Thymus (bovine)                                 | 60 mg              | -             |
| Neonatal Spleen (bovine)                                 | 60 mg              | -             |

|                                                                                                                                                                               | Amount Per Serving | % Daily Value |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------|---------------|
| Neonatal Liver (bovine)                                                                                                                                                       | 60 mg              | -             |
| Neonatal Pancreas (bovine)                                                                                                                                                    | 60 mg              | -             |
| Parotid (bovine)                                                                                                                                                              | 40 mg              | -             |
| Placenta (bovine)                                                                                                                                                             | 20 mg              | -             |
| Trypsin & Alpha Chymotrypsin (porcine)                                                                                                                                        | 25 mg              | -             |
| L-Lysine HCl                                                                                                                                                                  | 100 mg             | -             |
| Coenzyme Q10 (emulsified)                                                                                                                                                     | 1 mg               | -             |
| Citrus Bioflavonoids (from citrus fruit)                                                                                                                                      | 50 mg              | -             |
| Superoxide Dismutase (from vegetable culture †)                                                                                                                               | 60 mcg             | -             |
| Catalase (from vegetable culture †)                                                                                                                                           | 60 mcg             | -             |
| Proprietary Blend                                                                                                                                                             | 120 mg             | -             |
| Echinacea angustifolia (root)*, Neonatal Lymph Tissue (bovine)*, Cayenne Pepper (Capsicum annuum) (fruit)*, Chlorophyllins*, Organik-15™†, Lactobacillus acidophilus (DDS-1)* |                    |               |

\*Daily Value not established

Other Ingredients: Capsule shell (gelatin and water), food grade, and stearic acid (vegetable source).

† Specially grown, biologically active vegetable culture containing Phytochemically Bound Trace Elements™, methyl compounds and/or naturally associated phytochemicals including polyphenolic compounds with SOD and catalase, dehydrated at low temperature to preserve associated enzyme factors. Contains an ultra-trace amount (<0.001 ppm) of milk constituents which are used in the fermentation of probiotic ingredients.
