1000 IU VITAMIN D3

250 MCG METHYL B12 • 500 MCG BIOTIN

ULTRA-HIGH POTENCY • ONE CAPSULE DAILY
ALWAYS GENTLE • EASY-TO-SWALLOW

DIETARY SUPPLEMENT

360 Easy-to-Swallow Capsules

Andrew Lessman's ESSENTIAL ONE is an alternative to the low potency, artificial colors, additives and digestive problems experienced with typical store-bought daily multivitamins. Of course, no single capsule can offer all the potency required by the science; however, no formula delivers more than **Essential One** while also remaining 100% pure, easy-to-swallow and gentle to even sensitive stomachs. **Essential One** delivers 1,000 IU of all-important Vitamin D3 for those seeking higher levels of this key nutrient. It also provides far higher levels of key nutrients than the leading formulas, such as high potencies of all the B-Complex vitamins, including 250 mcg of our unique absorption-protected Methylcobalamin (Natural Coenzyme Vitamin B12) and 500 mcg of Biotin, along with 1,000 mcg of both Lutein and Lycopene; plus, 500 mcg of costly Zeaxanthin and 60 mg (90 IU) of our new highly bioavailable, natural Crystalline Vitamin E. All of these unique nutrients are not present in most multivitamins at any price. **Essential One** offers all the convenience of a one-per-day multivitamin, but with greater purity, higher potency and a superior complement of more than two dozen nutrients. Best of all, **Essential One** comes in a small, soft, easy-to-swallow capsule that ensures easy absorption without stomach upset.
