Curcumin is the yellow pigment in turmeric with many valued health benefits, but it is difficult for the body to absorb. Theracurmin is a natural curcumin preparation that utilizes advanced techniques to reduce curcumin's particle size, dramatically increasing its solubility and bioavailability. Detailed absorption studies have proven that Theracurmin is the best-absorbed form of curcumin on the market.[‡]

Muscle Recovery & Growth Curcumizer combines Theracurmin with micronized L-glutamine to:

- Support muscle cell repair after exercise*
- Support the body's natural inflammatory response*
- Support immune and digestive system health after periods of physical stress*
- Exert powerful antioxidant activity*
