Product of U.S.A.

A healthy respiratory system is critical for good health. A wholesome lifestyle void of smoke and environmental pollutants is most important to proper respiratory function. High-quality herbal supplements may also improve respiratory function and help the body fight respiratory tract irritation. The ingredients in this 30 day **Respiratory System** program are formulated and traditionally used to support proper respiratory function and to help the body combat the effects of environmental respiratory irritants.*

By understanding our body’s intricate and harmonious systems we can improve our own health and vitality, and share this wisdom with those we love.

Lung Support TCM: Is a Chinese herbal combination with ingredients that are traditionally recognized as tonics to moisten and nourish the tissues of the respiratory tract, particularly the lungs.*

Bronchial Formula: Is an Ayurvedic herbal formula designed with ingredients traditionally used to nourish the lungs and bronchi and to offer general protection to the respiratory tract.*

ALJ: Helps to soothe tissues and acts as an expectorant. This formula is made with herbs traditionally used to support healthy lung function, especially during seasonal changes.*

Respiratory System

Supports the Body’s Respiratory Function*

DIETARY SUPPLEMENT - 30 DAY PROGRAM
60 PACKETS - (330 Capsules)

Para tener un sistema respiratorio saludable es importante tener un medio de vida completo, evitando el humo y otros contaminantes ambientales, sobre todo para mantener una función respiratoria apropiada. La adición de suplementos herbáceos de alta calidad además puede mejorar la función respiratoria y ayudar al cuerpo a combatir la irritación al tracto respiratorio. Los ingredientes en este programa de 30 días para el **Respiratory System** están formulados y tradicionalmente usados para apoyar la función respiratoria apropiada y para ayudar al cuerpo a combatir los efectos de los irritantes respiratorios ambientales.*

Al entender los intrincados y armoniosos sistemas del cuerpo podemos mejorar nuestra propia salud y vitalidad, y compartir este conocimiento con nuestros seres queridos.

Lung Support TCM: Es una combinación herbácea china con ingredientes tradicionalmente reconocidos como tónicos para humectar y nutrir los tejidos del tracto respiratorio, particularmente de los pulmones.*

Bronchial Formula: Es una formula herbácea ayurveda diseñada con ingredientes tradicionalmente usados para nutrir los pulmones y bronquios, y ofrecer protección general al tracto respiratorio.*

ALJ: Ayuda aliviando los tejidos respiratorios y actúa como expectorante. Esta fórmula está hecha con hierbas tradicionalmente usadas para apoyar la función saludable de los pulmones, especialmente durante los cambios de estación.*
