

## About Immune Cellular Support System™

Immune response depends largely on the types of polysaccharides that are found in medicinal mushrooms, aloe vera, certain seaweeds, and several superior tonic herbs. Immune Cellular Support System™ combines all these factors—plus spirulina for phycocyanin and barley grass for chlorophyll—into a powerful, synergistic blend.\*

Immune Cellular Support System™ does not contain artificial colorings or flavorings, GMO's, sugar, soy, dairy, gluten or wheat. It is guaranteed to your complete satisfaction.
