360 Easy-to-Swallow Capsules

Andrew Lessman's RESVERATROL WITH GREEN TEA, GRAPE SEED AND POMEGRANATE EXTRACTS provides a unique, high potency blend of four of nature's most well-researched and respected sources of protective compounds. For centuries, **Resveratrol** and **Green Tea** have been recognized as central to the healthy Mediterranean and Asian diets and today, clinical research has validated their protective anti-aging benefits. **Grape Seed** is known for its exceptional levels of protective polyphenols, particularly **OPCs (Oligomeric Proanthocyanidins)**. **Pomegranate** is a centuries old traditional remedy often referred to as "sacred fruit." Scientists have identified the molecules behind its protective benefits and, unlike Pomegranate juice or typical supplements, our unique extract ensures the delivery of these vital compounds. It has only been in recent years that specialized extracts have made it possible to create this small capsule that contains exceptional levels of **Resveratrol**, along with the most important natural protective molecules from **Green Tea, Grape Seed** and **Pomegranate**. Best of all, we do so without any alcohol, caffeine, sugar, calories or additives of any kind.
