COENZYME Q-10 300 MG

PLUS FULL B-COMPLEX • VITAMIN C 200
WITH METHYL B12 & METHYL FOLATE

240 Easy-to-Swallow Capsules

Andrew Lessman's COENZYME Q-10 300 is more than an exceptional source of the finest natural CoQ10. It also provides the benefits of the world's most sophisticated high potency B-Complex supplement. No other B-Complex contains our unique absorption-protected Methylcobalamin (Natural Coenzyme Vitamin B12), as well as our proprietary form of metabolically active Folic Acid (Methyl Folate). Our CoQ10 also includes the equivalent of a high potency Vitamin C supplement with 200 mg of non-acidic Vitamin C. CoQ10 is required for all energy production and for life itself. In fact, because CoQ10 must be present in all living cells, its chemical name is Ubiquinone from the word "ubiquitous" meaning present everywhere. CoQ10 becomes even more vital as we age, since CoQ10 levels decline rapidly with age, stress, physical activity, poor diet, health issues and many medications such as cholesterol-lowering drugs. All cells require CoQ10 for all energy production and it is not surprising that the highest concentrations of CoQ10 are found in the body's hardest working organs (Heart, Brain, Liver, Kidneys and Pancreas). The ability of our most vital organs to constantly create abundant energy defines our good health. This formula ensures CoQ10's ability to promote optimum energy production and cellular protection by also including our unsurpassed, high potency B-Complex formula with our non-acidic Vitamin C. The result is the most uniquely comprehensive and effective CoQ10 formula available anywhere.
