IMMUNE FACTORS™

ECHINACEA • GOLDENSEAL • ASTRAGALUS
TRIPLE MUSHROOM COMPLEX • VITAMIN C

DIETARY SUPPLEMENT

360 Easy-to-Swallow Capsules

Andrew Lessman's IMMUNE FACTORS is a balanced blend of the nutrients and botanicals most frequently and effectively consumed by those seeking to support their immune system. **Immune Factors** contains a standardized blend of both forms of Echinacea (Purpurea and Angustifolia) along with Goldenseal. These powerful plant-based botanical extracts have been used traditionally for immune system support throughout history and, today, decades of modern clinical research has validated their immune supportive benefits. We have also added a standardized extract of Astragalus, which has been used for centuries in Asia to support the immune system, along with our unique proprietary blend of organic standardized extracts of Shiitake, Maitake and Reishi mushrooms based upon their long history of traditional use to help support immune system function. **Immune Factors** also contains high levels of the B-Complex vitamins and our unique non-acidic Vitamin C, since they are all so easily depleted by stress and are essential to support optimum immune system function. These standardized botanical extracts, as well as essential foundational nutrients, combine to deliver powerful support for your immune system when you need it most.
