TURMERIC 200 GINGER ROOT 200

TURMERIC ROOT AND GINGER ROOT EXTRACTS
SOOTHING RELIEF FOR JOINTS AND DIGESTION

240 Easy-to-Swallow Capsules

Andrew Lessman's TURMERIC 200 GINGER ROOT 200 combines extracts of two related plants that offer natural soothing relief for our joints and digestive system. **Turmeric** is a centuries old traditional medicine that is also the popular spice in Indian curry. Experts now recognize the science behind **Turmeric's** soothing role in joint and digestive health; however, scientists also concede that delivering **Turmeric's** benefits in a health supplement is very difficult. As a spice, flavor is all we seek, but in a supplement, we must ensure the delivery of **Turmeric's** protective compounds – **Curcuminoids**. We accomplish this by complexing our **Turmeric** with **PC (Phosphatidylcholine)** – the most important phospholipid in our liver and brain. This unique complex protects the **Curcuminoids** from digestive damage and excretion while enhancing their availability. Like **Turmeric**, **Ginger Root** has also been used for centuries throughout Asia as a traditional medicine and popular spice. **Ginger** was among the first spices brought to the New World and has long been recommended for its natural soothing relief for overworked joints or an upset stomach. Unlike typical **Ginger** products that are simply spice in a bottle, our **Ginger** is extracted from the root and standardized to provide high levels of **Gingerols**. In short, whether it's your joints or digestive system you seek to soothe, our **Turmeric and Ginger Root** extracts offer unparalleled natural relief.
