ABOUT US

At Samsara Herbs, we believe that ALL positive change in the world must first begin with positive change from within. We invite you to tap into your own infinite power through the use of our potent herbal extracts!

We seek out only quality herbs from our trusted sources from around the world for use in our herbal extracts.

Samsara Herbs, dedicated to empowering your life force!

Standardized herbal extracts contain isolated herbal compounds, in guaranteed amounts. Often having the prevalent compound found in an herb, in a significantly higher concentration than found in nature.

DESCRIPTION

Reishi Spores are the seeds of the Reishi mushroom. Reishi Spores are known to contain very dense concentrations of compounds such as polysaccharides and triterpenes. Reishi Spores are as hard as a coconut shell, so special technology is used to break them open to allow for absorption in the human body. Traditionally, Reishi Spores have been used to support a healthy immune system and regulate normal blood function.**

Our water soluble herbal extracts are best mixed in juice or a smoothie, although mixing in water is perfectly fine if you can tolerate the taste.

STORAGE

Cool dry place, out of direct sunlight.

Reishi Spores (98% BROKEN SHELL EXTRACT)
