

MC4MS CBD Therapy is derived from specifically bred industrial hemp plants with a high CBD content. It is a full spectrum cannabinoid extract, blended specifically for MS symptoms. The resultant oil is then added to an easy-to-use dropper bottle, containing 300mg of CBD (cannabidiol). It is a wholesome extract, not synthetic and not an isolate. It contains all the synergistic Cannabinoids, Terpenoids, Essential Oils and other compounds of the original plant.

* This product is not intended to diagnose, treat, cure, or prevent any disease.
