No. 58, Zinc is an exclusive scientific formulation consisting of Zinc in the forms of picolinate and succinate. Zinc Picolinate is reported to be the best source in reversing zinc deficiencies. Zinc deficiency may result in the loss of taste and smell. Zinc is important in prostrate gland function and the growth of the reproductive organs. It is also required for protein synthesis and collagen formation. Zinc may promote wound healing and a healthy immune system. Magnesium may help maintain the proper pH balance in the body.*
