Fructooligosaccharides (FOS, short and long chain) is a blend of dietary fiber (prebiotic) that promotes the growth of friendly bacteria. Cultures are freeze-dried to preserve viability, and designed to populate the intestinal tract.

1 Billion Microorganisms per Tablet at Time of Manufacture.

#### FOR BEST RESULTS KEEP FROZEN OR REFRIGERATED.

**Suggested Use:** Children 2 & 3 years of age, chew 1 tablet daily. Children 4 years of age and older, chew 1 tablet twice daily. Chew carefully and thoroughly before swallowing.

Specially formulated for children. The intestinal system is home to millions of 'friendly bacteria' helping to synthesize nutrients from foods and keeping 'unfriendly bacteria' in check. Antibiotic use and poor dietary habits can deplete these 'friendly bacteria'. Probiotic Power provides eleven species of living organisms to help replenish the 'friendly bacteria.'
