Other Ingredients: Capsule (gelatin, water), cellulose, silicon dioxide, magnesium stearate.

As we go about our day the immune system works to protect our body.

Phagocytes, Lymphocytes, T-Cells,

B-cells and Memory cells all

perform specific functions to help

our bodies stay healthy. Diet,

exercise, sleep, hydration and proper

supplementation are all factors that

help strengthen the immune system

and reduce the stress factors that may

weaken it. The ingredients in this 30

day **Immune System** program are

formulated to support and fortify the

body's immune functions.*
