

TRUTH

We pledge total truth in labeling. Our family of products contain only the purest and most potent ingredients. **Guaranteed.**

The calcium used in **Coral Calcium Plus™** is from Okinawa, Japan and is harvested from "above" sea level coral, which is not an endangered species.

Coral contains a natural balance of every mineral that's found in our body including Calcium. Coral minerals are considered organic because they've been previously digested by small sea creatures. Organic coral minerals are considered highly bioavailable because they are synergistic with the body's own mineral balance.*

We've added higher levels of some minerals to **Coral Calcium Plus™** because they offer increased support for proper bone function.*

Color of this product may vary due to color variations of the natural ingredients.

Warning: If you are pregnant or nursing, consult your health care practitioner before taking this product.

Keep out of reach of children. Store in a cool, dry place.
