Digestive enzymes are proteins found in our bodies that chop the food we eat into the building blocks of life. We use those building blocks to maintain, build, and repair the cells and tissues in our body. Digestive enzymes support your stomach and small intestine to break down food.*

Amylase, Glucoamylase, Lactase, Cellulase, and Hemicellulase aids in the digestion of carbohydrates. Proteases, Bromelain, and Papain aid in the digestion of proteins. Lipase aids in the digestion of fats.

Suggested Use: Take 1 vegan capsule with water before each meal.

Warning: Use only as directed. Consult your physician before use if you are pregnant or nursing, have a serious medical condition, or use prescription medications. For adult use only.
