

Contains Natural Vitamin K as MK-7

NORDIC

NATURALS®

The combination of vitamin D3 and vitamin K2 provides superior support for the health and maintenance of normal bones.* Vitamin D3 (cholecalciferol) is the natural, most easily absorbed and utilized form of vitamin D.* Vitamin K2 as menaquinone-7 is the most bioactive and bioavailable form of vitamin K.*

Together, these vitamins work in tandem to support osteoblasts (bone-forming cells), facilitate calcium and phosphorus balance in the blood, and promote healthy muscle function.* Each great-tasting, chewable gummy provides 1000 IU (25 mcg) of vitamin D3 plus 45 mcg of vitamin K2.

Gelatin-free. No artificially derived colors or flavors.

Suggested Use: One gummy daily, with food, or as directed by your health care professional or pharmacist.

Store in a cool, dry place, away from sunlight. Do not take if tamper-evident seal is broken or missing. Keep out of the reach of children.

Nordic Naturals products are never sold under any store brand

Warning: Consult with your physician before using this product if you use anti-coagulants (e.g., Coumadin/warfarin).
