5.5g BCAAs	48G PROTEIN	NO SUGAR ADDED
	2.5G NET CARBS**	GF GLUTEN FREE
		#1 TASTING

What makes Trutein so special besides its phenomenal taste? It's our **clean** label and our firm refusal to hide our whey, casein & egg proportions in a proprietary blend.

A **proprietary blend** is the term that other companies use to describe doctoring their protein powders to make them appear much higher quality than they really are. For example, while other brands might boldly claim the inclusion of micellar casein & egg white, the reality is that unless the specific percentages are clearly stated you are likely receiving 99% of the cheapest whey protein concentrate and less than 1% of the more expensive and equally important micellar casein & egg white proteins.

Trutein, on the other hand, has an entirely clean & transparent label and we reveal the exact percentages of our individual protein components. You can rest assured that you are truly receiving the highest quality formula available.

Our all-natural balanced blend of 45% whey, 45% casein and 10% egg white results in the ultimate sustained release protein. While whey digests quickly in about 30 minutes, egg whites absorb more slowly between 2-3 hours, and casein digests the slowest at 6 hours.[†] This means that Trutein continuously feeds your muscles over an extended 6hr period for maximum protein absorption. It also means you're going to feel full and satiated for much longer compared to regular whey, helping to keep your appetite at bay.* This makes Trutein perfect for breakfast, as a snack between meals, and as a post-workout protein shake!

TRUTEIN'S PROTEIN BLEND RELEASES SLOWLY OVER TIME!

REAL CUSTOMERS, REAL FEEDBACK

“Ok let me just say that I have finally found the protein brand that I will stick with! I have literally tried every protein brand over the past three years and this company leads it out the rest! I would never make a company a 10 unless I felt everyone should really give it a try. And Trutein is the TRUTH!” —Jo J.
