

#821 BIOCELL

Systemic's Dr. Morris, Ph.D developed Epic as part of our nutri-metabolomic™ research. This is a powerful intra-cellular antioxidant which enhances the cells ability to generate glutathione and S.O.D. (Superoxide Dismutase) in response to oxidative stress. In addition, it provides novel bioflavonoids acting specifically against superoxide and peroxynitrate (ONOO) free radicals.

This statement has not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, or prevent any diseases.

SHAKE WELL BEFORE USE.

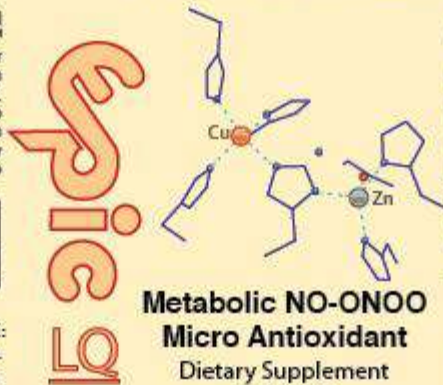

DIRECTIONS FOR NUTRITIONAL USE:

Take 1/2 dropper up to 3X per day, or as directed.
