

Product Information

Glucosamine occurs naturally in the body where it plays a role in the smooth working of the joints and helps maintain connective tissues. Chondroitin is part of a large protein molecule which is found within cartilage, offering structure and elasticity. Celadrin® is one of our most popular joint supplements, which is thought to complement and empower Glucosamine perfectly and as such, is often referred to as a 'perfect partner' with Glucosamine.

Ingredients - Each Capsule Contains:

Glucosamine Sulphate 2KCl 500mg, Marine Chondroitin Sulphate 400mg 90% (providing 360mg of active Chondroitin), Celadrin® Powder 100mg, Magnesium Stearate, Gelatin, Titanium Dioxide.

Suggested Daily Intake

Take one to three capsules daily as a food supplement or as directed by a healthcare professional.
