

GNC NATURAL BRAND™ SUPER NONI

Antioxidant Support

GNC Natural Brand Super Noni is GNC's highest quality noni product. Each one ounce serving is concentrated to contain 20,000 milligrams of whole organic noni fruit extract and delivers the antioxidant capacity of more than three servings of fruit.** Antioxidants, natural substances found in fruits and vegetables, help protect the body against harmful free radicals that can destroy healthy cells and promote the cell aging process.

Immune System Support

GNC Natural Brand Super Noni's unique patented blend includes naturally occurring Vitamin C-like compounds, as well as polysaccharides, to support your body's overall immune health and provide antioxidant protection.* Each one ounce serving contains 2,500 ORAC units (Oxygen Radical Absorption Capacity) from a blend of organic noni and other popular fruits and berries including; blueberry, grape seed and cranberry. The ORAC assay measures antioxidant capacity against free radicals.

Standardized Polysaccharides

Polysaccharides are beneficial complex carbohydrates. Each one ounce serving is standardized to contain 825 mg of polysaccharides.

THE GOODNESS OF NONI

Noni fruit has been a dietary staple of the Polynesian people for many years. The oldest references to noni date back centuries to India's ancient Sanskrit writings that cite noni for its Ayurvedic uses.

Noni is characterized by its vivid green, yellow color and pungent smell and taste.

GNC Natural Brand Super Noni is a natural source of a variety of beneficial phytonutrients. Each one ounce serving supplies 20,000 milligrams of noni extract and the antioxidant capacity of more than three servings of fruit.**

**Based on ORAC value of fruit and berries blend.
