

ABSOLUTELY NO FILLERS ADDED

Candida Control™ includes two enzymes to help control candida overgrowth. The enzyme cellulase breaks down the cell wall of candida, while protease removes the toxins expelled during cell death. This combination helps prevent discomfort common to cleansing (die-off).* Broccoli Seed extract, as well as beneficial microflora (probiotics), work together to support healthy detoxification.*

Recommended Usage: Take 2 capsules three times per day on an empty stomach (1/2 hour before or 2 hours after a meal). More may be taken as directed by a health practitioner.*

Our exclusive Thera-blend™ enzymes are effective throughout the entire digestive system, thereby ensuring complete digestion. When formulated for therapeutic purposes, Thera-blend enzymes are customized for optimal performance throughout the entire body.

Contraindications: Candida Control should not be taken with any timed release medications that use cellulose as its time-release mechanism.
