Dihydrotestosterone (DHT) production accelerates with age, resulting in prostate discomfort, frequent urination and many related problems. Less well known is the research indicating that the culprit, catabolic oxidative damage, also causes an overall decline in testosterone that men experience.

Nature's Plus® AgeLoss® Prostate Support is precisely calibrated to counter the catabolic free radicals that attack the prostate, simultaneously promoting greater testosterone production, as well as healthy testosterone instead of DHT.* **AgeLoss Prostate Support** features:

ReSettin® Saw Palmetto/Astaxanthin Complex: Found to nutritionally support healthy testosterone production as well as overall prostate health, this unique extraction of saw palmetto, together with natural astaxanthin, is backed by scientific research and U.S. patents.*

REJUVABOLIC™ Full Spectrum Antioxidant Blend: Achieving more than 3000 total ORAC value, this vibrant complex of antioxidant-packed botanicals such as grape seed, wild bilberry and blueberry, plus key prostate anti-catabolic nutrients trans-resveratrol and quercetin, neutralizes age-accelerating free radicals throughout the male body.*

FIRST DAY™ Healthy Inflammation Response Blend: Antioxidant-dense whole foods and nutrients, such as olive fruit, turmeric and Thione Complex™, promote healthy inflammation response. The polyphenols in green tea extract (standardized to 95% polyphenols and 40% EGCG) have been extensively studied for their benefits for prostate health.*

Amino Acid Triplex: A restorative blend of L-glycine, L-alanine and L-glutamine, these three amino acids are needed for the maintenance of a youthful, healthy prostate.*

Organic Gold Standard Potentiating Nutrients annatto and guava optimize the additional prostate-targeted antioxidant anti-aging support from zinc and vitamin E.*

Nature's Plus AgeLoss Prostate Support is the most sophisticated prostate anti-aging formula ever developed — optimizing youthful urinary comfort and peak sexual performance!*
