TOTAL BODY HEALTH

PURE & NATURAL

COLLAGEN (collagen hydrolysate) is a complex structural protein that maintains strength and flexibility of skin, ligaments, bones, joints, muscles, tendons, gums, teeth, eyes, blood vessels, nails, and hair. SUPER COLLAGEN™ TYPE I & III is 100% pure collagen protein that provides building materials for growth and maintenance of a healthy body. When Super Collagen™ is taken internally, the body receives the raw materials it needs to supplement the collagen found in all of these areas. Super Collagen™ is enzymatically processed into its amino acid form with a very low molecular weight, which can be utilized 100% by the body. SUPER COLLAGEN+C™ tablets are formulated with Vitamin C to provide optimum supplementation of your dietary collagen needs.*

SUGGESTED USE: As a food supplement, take three (3) tablets twice daily preferably on an empty stomach for maximum absorption and wait 30 minutes before eating or before taking any other protein products. For enhanced results use with Pure H.A.™ natural hyaluronic acid. Not to exceed 12 tablets daily.
