TRULY NATURAL™ VITAMIN C provides highly-bioavailable, naturally-occurring vitamin C from whole camu camu berry, whole amla berry, and high-quality extracts of acerola cherry. Native to South and Central America, acerola and camu camu are two of the best known natural sources of vitamin C. Amla, or Indian gooseberry, is known for being an abundant source of vitamin C as well as other potent antioxidants and has been used in Ayurvedic medicine for thousands of years. Whole-food sources of vitamin C contain necessary cofactors which enhance vitamin C's efficiency and utilization by the body. The natural vitamin C content in whole camu camu and whole amla is enhanced by a full profile of naturally-occurring minerals and amino acids. Truly Natural Vitamin C contains only naturally-occurring vitamin C, and our TruGanic™ sourcing standards ensure that no synthetic ascorbic acid is ever added!
