

Protecting the "Structure" & "Life Force" of the Aloe Plant Provides Maximum Biological Activity, Bio-Availability & Effectiveness

Bio-Protected™ Aloe Processing Guarantee

- **Raw, Uncooked, Never Heated.** No Heat is ever applied at any time in any part of processing from field to bottle. Stabilized & purified without even experiencing room temperatures above 90° F (always below body temp.)
- **No Water added or removed.** Never concentrated, diluted or dried. Nature's original design, balance, proportions and synergy are protected, delivering the full power of Aloe's biological form & activity.
- **Whole Leaf & Inner Gel** of the Barbados-Miller plant is used to include the nutrient rich leaf. Our unique processing removes impurities without damaging filtering.
- **Non-Laxative Formulation** Aloin & emodins completely removed to ≤1ppm from the whole leaf & inner gel of the plant with NO damaging filtering.

Our unique purification process allows for daily use of our aloe and also removes Aloe's bitter taste & smell.

Processed to protect & deliver the full range of all naturally occurring constituents including the fragile enzymes and large polysaccharides (betaglucomannans)

Health Made Simple*

The magnificent Aloe plant, that is designed to be self-sufficient & thrive in the desert, feeds us in unique ways with its 250+ naturally occurring constituents including: enzymes, amino acids, essential fatty acids, vitamins, minerals, glycoproteins, sterols, growth factors, & all sizes of uniquely complex Aloe polysaccharides and mannans. Our Bio-Protective™ Processing protects these intricately woven constituents to feed the cells, tissues and organs of our bodies as only a raw, "live", whole food can.

**"Life" feeds "Life"
Feed your Life with
Life-ForceFull™ Aloe**
