

A vegan probiotic to support a healthier gut and microbiome, with organic prebiotics to feed your healthy bacteria.

BETTER BITES FOR A BETTER BELLY.

Unlike regular gummies, our bites have no added sugars or synthetics. Each bite is made with real fruit plus prebiotics and probiotics. Nothing silly added. Read the ingredient list. See?

A healthy body needs a healthy gut and a healthy gut needs good gut flora. Our probiotic restores the good bacteria in your gut while our prebiotic makes sure the good bacteria is fed and thriving. They work together for ultimate gut, digestive, and overall body health.

They're delicious too, so you don't have to explain to your little one that healthy things don't always taste good. Because now they do.
