

WHAT AM I?

I'm vegan probiotic capsules that also contain the organic prebiotic, inulin. Prebiotics serve as fuel for probiotics - they help the good bacteria thrive in your gut so your probiotics can get to work! I don't need refrigeration because I'm freeze-dried and ready to travel baby! My hobbies include long walks on the beach and making your gut a better place. ☺

HOW CAN I HELP?

I contain some of the most clinically documented probiotic strains in the world. My probiotic blend contains acid resistant strains that support optimal digestive health and peak immune function.*
