

Pregnenolone is naturally produced in the body. Its main role is as a progenitor hormone for the biosynthesis of other hormones (such as Progesterone, DHEA, cortisol and other sex hormones). Pregnenolone itself, also has substantial neurocognitive (brain processing) effects. As we age, many biosynthetic pathways diminish and we experience the effects of hormonal insufficiencies. Supplementing with Pregnenolone can support hormone levels and healthy aging.*

CAUTION: For adults only, do not use if you are pregnant or nursing. Consult a physician or licensed qualified health care professional before using this product if you have, or have a family history of breast cancer, prostate cancer, prostate enlargement, heart disease, low "good" cholesterol (HDL), or if you are using any other dietary supplement, prescription drug, or over-the-counter drug. Do not exceed recommended serving. Exceeding recommended serving may cause serious adverse health effects. Possible side effects include acne, hair loss, hair growth on the face (in women), aggressiveness, irritability, and increased levels of estrogen. Discontinue use and call a physician or licensed qualified health care professional immediately if you experience rapid heartbeat, dizziness, blurred vision, or other similar symptoms.

Keep out of the reach of children.

Do not use if safety seal is broken or missing.

Keep in cool, dry place.
