

Mastic Gum contains natural tree stem mastic gum (Pistacia lentiscus), a resinous compound, from a shrub-like tree grown mainly in Greece and Turkey. Resins, such as the triterpene mastic acid, make up 90 percent of the gum. Mastic gum contains a number of trace elements like sodium, magnesium, potassium, iron, calcium and manganese. Mostly composed of resinous gum and volatile oils, mastic has been used for centuries by traditional healers for stomach distress.*

SUGGESTED USE: As a dietary supplement, take two (2) capsules per day with water or juice before breakfast or as directed by your qualified healthcare professional.

Keep out of the reach of children.
Do not use if safety seal is broken or missing.
Keep in cool, dry place.
