D-Ribose

Promotes Energy Production &
Healthy Cardiovascular Function*

700 mg

180 Veggie
Capsules

DIETARY SUPPLEMENT

D-ribose is a naturally occurring sugar used by every cell in the body.* It's an essential compound in energy metabolism that serves as a building block for adenosine triphosphate (ATP)—the body's basic energy source.* D-ribose is also the backbone of genetic material, DNA and RNA.* Studies have shown that ribose supplementation can enhance cardiac energy levels and support cardiovascular metabolism. Further studies suggest that ribose plays a role in supporting energy recovery after exercise. Exercise increases free radical production in muscle tissue. Ribose may strengthen and support the body's crucial antioxidant defenses.*

CAUTION: For adults only, if you are pregnant, nursing, taking any medications or have any medical condition, consult your doctor before use. Discontinue use and consult your doctor if any adverse reactions occur.

Keep out of the reach of children.
Do not use if safety seal is broken or missing.
Keep in cool, dry place.
