

Hi-Tech's Black Elderberry delivers the benefits of elderberries in convenient concentrated tablet form so you don't have to consume large amounts of the fruit.

Despite the accumulating evidence supporting the health effects of anthocyanins, their plasma concentrations were found to be very low. Hi-Tech's Sambuca Black Elderberry Extract provides a minimum of 15% anthocyanins and 10% polyphenols - the naturally-occurring, active constituents of elderberries. Recent research has confirmed elderberry's traditional use to support a healthy immune response and promote healthy antioxidant levels. For centuries European elderberry have been used to help support the body's natural defenses thus making it extremely useful during seasonal change and winter months. According to the United States Department of Agriculture, the antioxidant capacity of black elderberries is superior to strawberries, cranberries and blueberries. Black elderberry possesses antioxidant properties that can help protect cells from free radical damage and may support healthy immune function.† Hi-Tech's Elderberry extracts are manufactured from premium European *Sambucus nigra* fruit, processed without solvents via physical membrane separation, and provides 15% anthocyanins and 10% polyphenols - the beneficial phytonutrients. Elderberry has one of the highest ORAC antioxidant values compared to other fruit. Sambuca Black Elderberry extract, provides strong immune system support to help you and your family stay healthy throughout the year. Sambuca Black Elderberry extract conveniently arms you with some of the best protection nature has to offer.
