

A synergistic blend of the top evidence based sports nutrition ingredients that work together to enhance muscle synthesis, strength and endurance. Fortifeye Fit can be used as a pre and post workout supplement. For maximum results we recommend taking one scoop 15-20 minutes before working out and then one scoop immediately after working out. Fortifeye also recommends adding one scoop of Fortifeye Grass Fed Whey isolate to the post workout scoop of Fortifeye fit. This combination is the ultimate in muscle fuel.
